(signed orders accepted only)

To be in compliance with Commission Regulation (EU) 73/2010 laying down the requirements on the quality of aeronautical data and aeronautical information for the single European sky AIS of Latvia provides three ways of aeronautical data and aeronautical information delivery to its users.

1. Distribution by physical means (CD is mailed).
2. Automatic distribution through the use of a direct electronic connection between AIS and the user when the registered user accesses the AIS web-site <https://ais.lgs.lv> and extracts aeronautical data and aeronautical information.
3. Automatic distribution through the use of a direct electronic connection between AIS and the user when aeronautical data and aeronautical information is delivered by AIS into the user's system.

We kindly ask you to mark the preferred way of aeronautical data and aeronautical information delivery. If your preferred choice is No 3, please indicate the delivery address.
